Cooperative Cases

Cooperation with HNA Tour Group

Established on Mar.2007, HNA Tour Group is one of the seven industry groups of HNA Group, it is also one of the three strategic business aviation Centers of the tourism enterprises. HNA Tour Group is responsible for the entire integration and business development of HNA tourism industry chain resources. Beside this, HNA Tour Group is able to integrate and mobilize more than 200 aircrafts, nearly 50 hotels and over 20 travel agencies, which include Hainan Airlines, Capital Airline, Deer Jet, Hainan Airline Hotel. Based on the complete tourism resource chain, HNA Tour Group fully covers "food, living, transportation, sightseeing, shopping, entertainment," all the six elements of tourism industry.

RoamWiFi established cooperation with HNA Tour Group in May, 2015, in this cooperation, RoamWiFi provides RoamWiFi Device and outbound internet service to the subsidiary enterprises of HNA Tour Group(Capital Airline, Deer Jet, CAISSA, Kangtai Travel Agency). The two companies also collaborate to design Outbound Travel App, create a high quality overseas customer service center, thus to spread brand of both sides. In the near future, the two sides will also collaborate in the field of finance, currency exchange, tax rebate, insurance, etc.

Cooperation with Guangdong Seafarers' Federation

Guangdong is a harbor city with the coastline of 3368 kilometers, 998 rivers, navigable mileage of 14213km. The port construction finished in the end of 2013, with 2953 productive berths, 273 deep-water berths which are able to host over ten thousand tons goods, including 1850 coastal berths, 150,000 registered seafarers and more than 1000 international cargo ships in operating. Guangdong Province has been a important port of foreign trade city in China all the time.

As the managing and leading organization of Guangdong seafarers, Guangdong Seafarers ' Federation signed the strategic agreement with Roamwifi Tech.. By taking advantage of the product and technology of RoamWiFi, all the seafarers of Guangdong are able to enjoy the portable internet service.

In the near future, the two sides are planning to work together to provide customizable information, internet service and other apps for domestic and overseas seafarers.
